

MIT SWE KEYS

Keys to Empowering Youth

[Free program for girls in grades 6-8 @ MIT]

Do you want to do fun experiments? Build things? Meet women who design and invent? Visit MIT labs! Make new friends! Work Together! Have **FUN** learning!

Participants meet female college students who serve as role models and present a network of accessible resources. The program emphasizes 'hands on' activities: activities that focus on problem solving, design, communication, planning for the future, and the importance of education.
